'My NRS Store' App [Update 2.9.16] Release Notes

Three new features have been added in this release that will help NRS retailers manage their stores from the app.
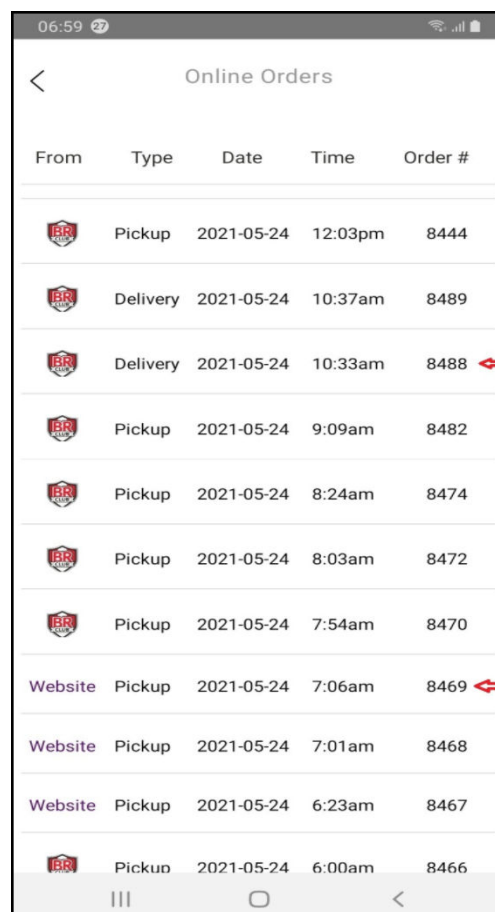

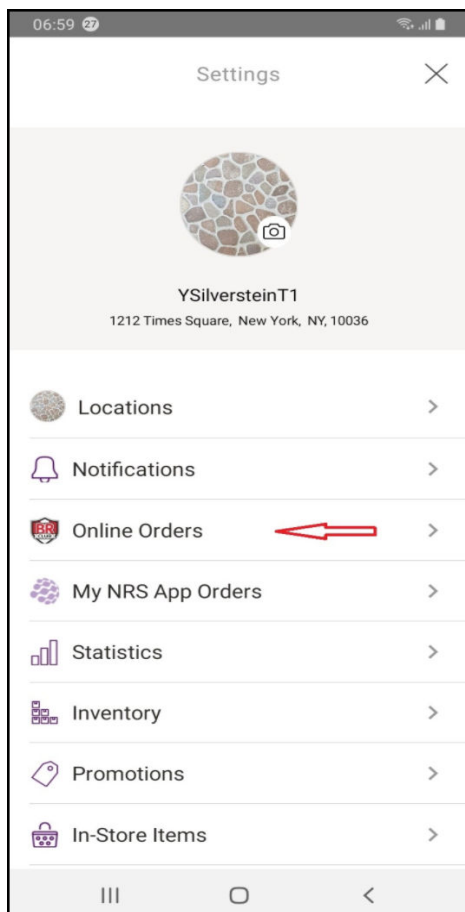

(1) 'Online Orders' Page

Tap the Hamburger icon and note there is a new option at the top of the Settings page called 'Online Orders'.

Opening the Online Orders page displays a list of all the orders made by your customers on your store's website or from your store in the BR Club App. The list has columns showing:
- Whether the orders were made from your Website or from the BR Club app
- Whether it is a Pickup or Delivery order
- The Date and Time that the order is supposed to be picked up
- The Order #

The list is also sorted in order of date and time.

Clicking on an order from the list shows the order details. As shown here:

(2) Invalid Dates Fix

Now the My NRS store app shows merchants the date and time for cash drops and vendor payouts.

(3) Credit Card Removal Option

If merchants have placed orders through NRS Market they now have the ability to remove stored credit Cards.

Example: If a customer has an expired Credit Card and wants to remove it this is now possible by simply selecting the card and then hitting the remove option.
