

AUGUST 2018 RELEASE NOTES:

1) The Basket Discount* button has been moved from under the virtual tape to the right side of the screen where the LOYALTY button used to be. We are preparing new software to handle online ordering. Soon, your customers will be able to order ahead using a consumer app.

NOT YET
ACTIVE

2) We've modified the **Other** method of payment key. When tapping **Other**, this is what you will see (NOTE: **Epaid** and **Loyalty** are not yet active):

3) We've simplified cash on hand reporting in the shift report.
Note: Use of the Lottery and Scratch Off payments and payouts are now treated as cash equivalents on the report. These totals of cashbacks for each category, match the total redemptions.
