- Get all the same features as the App
- Coming soon! The ability to print customized reports off desktop/laptop

***NOTE: Via app and laptop/desktop, merchant cannot view or access the POS register itself.

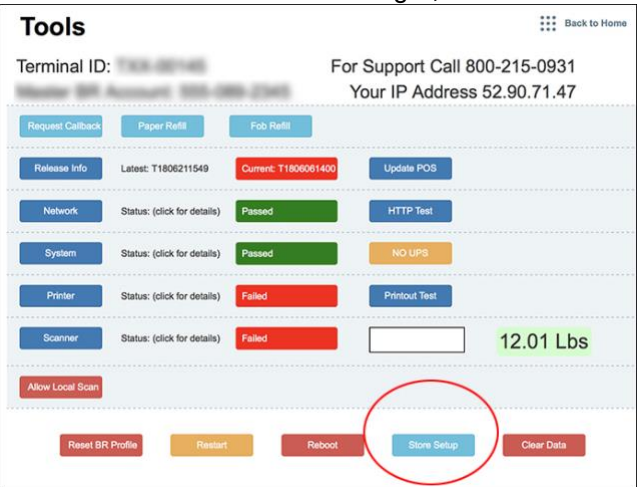

Read on for the 3 simple steps...

- 1) **Your email address must be registered in the NRS Portal in your POS. IF YOU NEED ASSISTANCE, PLEASE CONTACT YOUR SALES AGENT OR NRS CUSTOMER SUPPORT (800) 215-0931.**

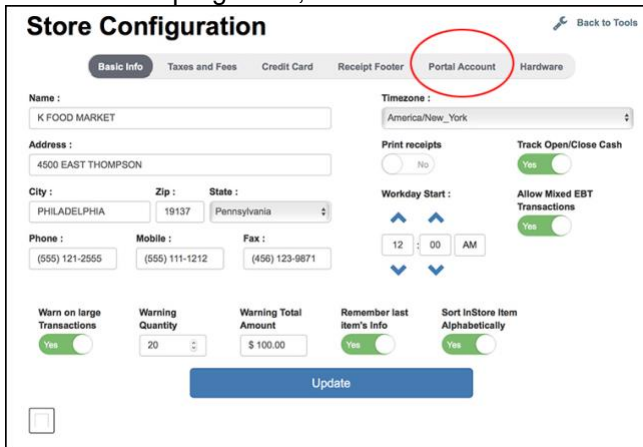

Go to the POS unit. Click on **TOOLS**.

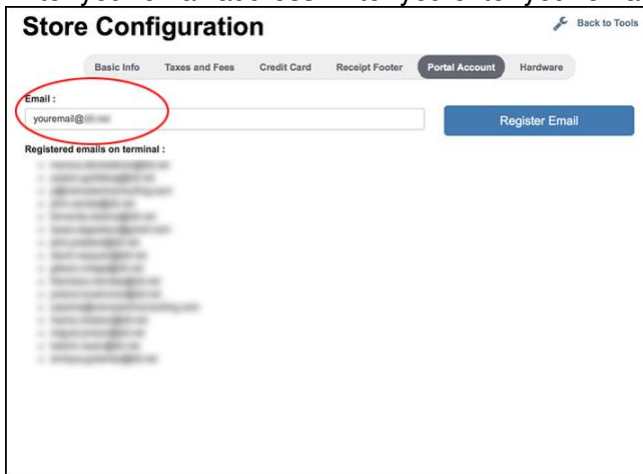

Click on blue button on bottom right, **STORE SETUP**.

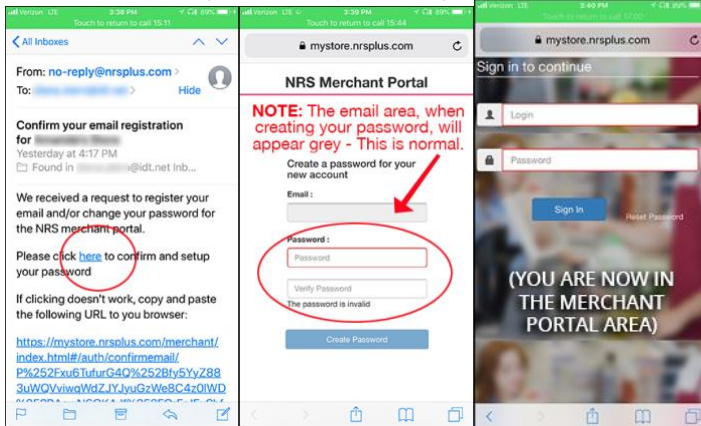

Now select top right tab, **PORTAL ACCOUNT**.

Enter your email address. After you enter your email, tap **REGISTER EMAIL**.

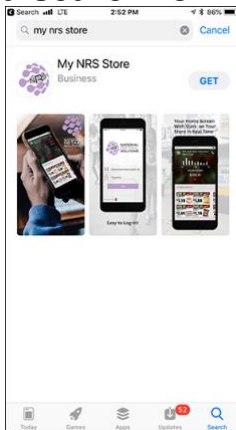

You will be sent an email from no-reply@NRS with a link, asking you to set up and verify your password. Follow those steps carefully to complete your password setup***.

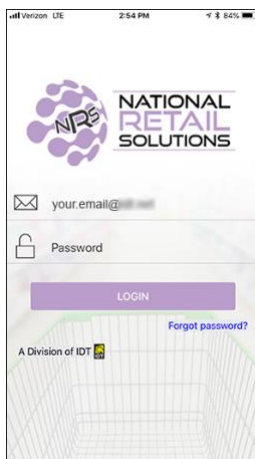

***Please note that the password you set up for the portal (and app) should be a secure password. You should not use the simple 5 digit pin used to login to the POS. The reason is that with a weak password, others will be easily be able to break into the web portal for the store and be able to extract data and, even worse, change prices and remove items from the pricebook.

2) Next, on your smartphone, visit the App Store and search for My NRS Store. Download the app.

3) Open the app. If your email is not yet showing, enter it, and then enter your password*.

You are now inside the NRS App - Congratulations!
You're ready to use our app to remotely view your business.

*The same credentials are used to log in to the back office online @ mystore.nrsplus.com
